Esri resources for your organization

Course introduction

Course introduction
Course goals
Installing the course data
Icons used in this workbook
Understanding the ArcGIS platform

1 Sharing and Web GIS

Lesson introduction
ArcGIS and Web GIS
Sharing within your organization
Portals
Comparing ArcGIS Enterprise and ArcGIS Online
Compare the ArcGIS portals
Content creation and sharing
Portal members
Identify portal member roles
Exercise 1: Share web layers using an ArcGIS Enterprise portal
- Sign in to your organization's portal
- Share organizational content
- Discover additional web layers

Lesson review
Answers to Lesson 1 questions

2 Sharing with ArcGIS Pro

Lesson introduction
ArcGIS Pro sharing options
Content sharing
Copied and referenced data
Sharing web layers with ArcGIS Pro
Exercise 2A: Share a web map
- Sign in to your portal
- Add content to your map
- Share content to your portal

Choosing between copied and referenced data
ArcGIS Enterprise supported layers

Exercise 2B: Explore item details in an Enterprise portal
Validate the web map
Explore item details
Configure the editing settings
Sharing content
Answers to Lesson 2 questions

3 Sharing user-managed content

Lesson introduction
What is user-managed content?
Enabling user-managed content in ArcGIS Enterprise
Checkpoint
Types of layers for user-managed content
Managing feature layers and map image layers
Exercise 3: Share user-managed content
Validate the database registration
Publish a referenced map image layer
Publish a referenced feature layer
Add new layers to a web map
Add new polygons to a web feature layer
Verify edits to authoritative content
Sharing map image layers or feature layers
Lesson review
Answers to Lesson 3 questions

4 Analysis in the ArcGIS Enterprise portal

Lesson introduction
Analysis in an Enterprise portal
Data sources
Choosing feature collection or hosted feature layer
Exercise 4: Conduct analysis in the portal
Add .csv to your web map
Merge the data layers
Use analytical results for additional analysis
Challenge: Perform further portal analysis
Portal analytical functionality
Lesson review

Answers to Lesson 4 questions
Exercise 4 challenge solution

5 Sharing custom analysis

Lesson introduction
Custom web tools and geoprocessing packages
Web tools and geoprocessing packages
Web apps
Exercise 5: Use a custom geoprocessing tool in a configurable web app
    Share a custom geoprocessing tool
    Create a custom web app
    Use the custom web app
Configurable web apps
Lesson review
Answers to Lesson 5 questions

6 Sharing packages

Lesson introduction
What is a project package?
Sharing packages outside an organization
Using project packages
Exercise 6: Create a project package
    Consolidate your project content
    Analyze your project package
    Share your project package
Lesson review
Answers to Lesson 6 questions

7 Sharing imagery

Lesson introduction
Elements of imagery
Raster function templates
Exercise 7A: Share a raster function-enabled imagery layer
    Explore an image layer
    Apply a raster function
    Save a raster function template
    Share a web imagery layer
    View the new web imagery layer in the portal
Applying multiple raster function templates to an image layer
Workflow review

Exercise 7B: Use raster functions in ArcGIS Enterprise
Examine the web imagery layer
Update the image display
Apply a raster function to a web imagery layer
Save a function result as a new raster layer
Lesson review
Answers to Lesson 7 questions

8 Optimizing map display through caching

Lesson introduction
Tile layers and tile packages
What is the advantage of caching?
Plan and optimize tile layers
Exercise 8: Share a vector tile layer
Verify map settings before sharing
Prepare a map to share as a vector tile layer
Share a vector tile layer
Examine the vector tile layer in the portal
Challenge: Publish a tile package as a tile layer
Lesson review
Answers to Lesson 8 questions
Exercise 8 challenge solution

9 Using web apps and presentations

Lesson introduction
Extending your web map
Presentations
Creating presentations
Configurable apps
Choosing configurable app templates
Web AppBuilder for ArcGIS
Exploring the functionality of Web AppBuilder for ArcGIS
Exercise 9: Create a configurable app
Create web maps
Create a web app
Share your web app
Sharing to a group
Distributed collaboration
Establishing a distributed collaboration
Lesson review
Sharing GIS content using ArcGIS portals

Answers to Lesson 9 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
